

WHICH PRINCESS WILL BE CROWNED QUEEN BY MIDNIGHT IN THIS *BATTLE-ROYALE DECK-BUILDING BOARDGAME* OF GUILLE, DECEPTION, AND BRAWN?

3–6 players | 60–90 minutes | Ages 12+

OVERVIEW

The Midnight Queen is dead... As her kingdom weeps, the Queen's dying command was to invoke the Rule By Midnight: a trial of combat and guile, where the Princesses of Twelfold battle and scheme against one another. Each Princess wields unique tactics to battle for the Midnight Court, but only one shall wear the crown.

INSIDE: The centerpiece of this game is a stunning **Clock Dice Tower** that tracks turns, offers cards to buy, and rolls your dice! It spins to face each player on their turn. Nearly 200 cards are themed to your specific Princess, with additional Bazaar cards (75) available to customize your deck. Tokens, trackers, boards, and other cards make gameplay easy to track even when things are getting heated.
