RESISTANCE

◇ Focus *inspect, analyze, remember*

◇ Sense *attune, channel, reveal*

Burn a resistance to reroll a number of dice equal to your action rating.

ROLE: Face

◇ **I Know a Guy:** Once per assignment, ask the GM who you know nearby that could help you. The GM will tell you who they are, and explain why this NPC might have insight into the investigation.

◇ **Sweet Talk:** You know how to work the room. After you make small talk with someone, you may add +1d on any Read rolls you make in which they are the target. If your current Cunning resistance is 2 or higher, that die is gilded.

◇ **Cool Under Pressure:** On any high-stakes roll, you may always spend Cunning instead of the drive the action falls under.

SPECIALTY: Journalist

◇ **Insider Access:** Your line of work offers you special privileges. Once per assignment, automatically gain access to an important person or place by using the Press Credentials gear.

◇ **Open Book:** You can get people to open up to you very quickly. When you attempt to connect with others by sharing something deeply personal, add a number of dice equal to your current Cunning resistance to a Sway roll. On a success, they will reciprocate.

◇ **Lie Detector:** When you make a Read roll in an attempt to figure out whether a person is telling the truth, gild an additional die. The first Cunning you spend on the roll is worth +2d instead of +1d.

◇ **Press Conference:** You can spend 1 Cunning to gather a large group of people together to make announcements, ask questions, or stage a distraction. All Cunning rolls you make at this assembly take +1d.

◇ **In the Trenches:** You've done enough dangerous journalism work to know how to keep yourself safe. Once per assignment, you may burn 1 Cunning resistance to soak a Body mark.

◇ **Well-Researched:** You can spend 1 Intuition to ask the GM a specific question about a place, group, or concept that you may have researched before the assignment. They will tell you what you know from that preparation.

◇ **Escape Artist:** Spend 1 Nerve to automatically escape ropes, cuffs, manacles, or a creature that has grappled you.

◇ **Practiced Patter:** You've long rehearsed for a moment like this. When making a Sway or Hide roll, you may spend Intuition instead of Cunning.

◇ **Uncanny Eye:** You may spend 1 Intuition to ask the GM a question: *How can I leverage something here to my advantage? What here doesn't work the way it appears? What is out of place here?*

◇ **Flourish:** You know how to cover your mistakes with flair. On a roll where you could spend Cunning, if you fail or get a mixed success, you may spend 2 Cunning to push the result up one tier—from a miss to mixed success or mixed success to full success.

◇ **The Prestige:** Your magic is usually all smoke and mirrors, but you have one trick you've learned that's real. Roll Sense when you perform it, and on a success, take a Bleed mark. Circle one option when you take this ability: *change appearance, levitate, summon mundane object, teleport a short distance, or throw your voice.*

SPECIALTY: Explorer

◆ **Mind Over Matter:** When you are told to use a specific action on a roll, you may take a Brain mark to utilize an alternative action instead. You may also spend the drive that corresponds with your chosen action. Describe how you adapt to your situation.

◆ **Tenacious:** When you have 1 or more Bleed marks, gild an additional die on Move, Strike, and Control rolls while in danger.

ROLE: Scholar

◇ **Well-Read:** You're highly educated and retain knowledge better than most. When you spend Intuition while making a roll, on a result of 3 or less, earn back any of the Intuition you spent.

◇ **Occult Researcher:** Take 1 Brain mark to ask the GM for an important occult detail that you would recognize from your studies, but has not yet been revealed in the scene. If there are none, clear the Brain mark.

◇ **Meticulous Notes:** If your current Cunning resistance is 2 or more, add +1d to all Focus rolls. After an assignment, increase your Illumination track 1 additional point because of the detailed notes your character returns with.

SPECIALTY: Doctor

◇ **Patch Up:** When you have a few moments of calm, you can make a Focus roll to heal 1 Body mark on an ally. On a 4-5, spend 2 Intuition to accomplish this. On a 6, spend 1 Intuition. On a 3 or less, you may take a Brain mark to take the 4-5 result instead.

◇ **Non-Combatant:** Your pain spurs others to action. If you haven't hurt anyone yet during this assignment, when you take a mark, each of your allies in the scene can recover 1 drive point of their choice.

◇ **Dissection:** When you make a Focus roll to dissect a piece of organic matter affected by bleed, gild an additional die. You cannot take Bleed marks from this inspection.

◇ **Resuscitation:** When a nearby ally takes a scar, you can make a Focus roll in an attempt to immediately revive them. On a 6, it works. Though they still receive the scar, they're back on their feet. On a 4-5, it will cost 3 drive points of your choosing. This cannot be used when a PC takes their fourth scar.

◇ **Lifesaver:** Between assignments, you can spend 1 Stitch to work on healing an ally's scar. When you do, make a Focus roll. On a critical success, fill three. On a 6, fill two. On a 4-5, fill one. When the track is full, the scar is healed and 1 action point may be shifted.

◇ **Anatomical Strike:** You know where the body is most vulnerable. When attacking an enemy, you may roll Focus instead of Strike.
